

The FAA Safety Team presents:

## **Flight in the 'Danger Zone'**

You may be surprised to learn that nearly all midair collisions occur during daylight hours in VFR conditions. Perhaps not so surprising is that the majority happen within five miles of an airport. Don't miss this opportunity to refresh your knowledge on proper procedures when operating at a non-towered airport. We will be discussing right of way rules, proper traffic pattern procedures, proper communications and much more. Please come to this exciting event, there will be a cookout starting at 6:00 pm in the Valley Aviation Courtyard prior to the seminar at 7:00pm. Valley Aviation will also be offering a "Spin Training Session" as a door prize, please see additional information for details and register on-line for this exciting fun event!

**Directions:** The Luzerne County Annex is located on the left side of the WBW parking lot.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
